ENERGY SOLES

INCREASE YOUR EFFICIENCY!

Mobile sources of power promote energetic and healthier life

We are permanently exposed to geopathic fault zones, electrosmog and stress, which in the long term can lead to health problems (according to measurements & experience reports). This insole can protect you from the stress in the environment and acts like an „energy multiplier“. You can noticeably go through life with extra energy.

endurance

concentration

regeneration

Oscillation frequencies in the body

Effects

External circumstances such as interference zones, electrosmog, stress etc. can affect people and bring a negative vibration range and thereby weaken the immune system. That doesn't only affect performance, but also in the long run the whole organism can suffer damage and serious illnesses.

Solution

Geonado experts have developed a complex procedure to charge an energy chip with a permanent frequency that has positive effects on the human body. This chip is built into the insole. Measurements showed that the bodies of the test persons were able to absorb this positive frequency, boosting their energy and general well-being.

Measurements prove:

The energy sole
stabilized and energized

The sole causes a clear energy increase in the measured subjects and stabilises the power reserves while reducing the stress level. Thus, performance, the ability of concentration and regeneration were improved. High energy level and high balance of the energy fields are also beneficial for recovery processes.

The patented energy Chip
(Patent AT507969B1) directly
stimulates the kidney meridian
and can help strengthen your
body's own energy

The energy chip is integrated into
the tissue of the anatomically
shaped sole with a special proce-
dure. Fine leather surrounds the
breathable cork core and ensures
optimal hygiene
and highest walking comfort.

Geonado

The energy chip is the result of the latest
biophysical findings paired with the latest
technology and years of experience!

Experiences with Geonado

Petra Nickel

HOUSE WIFE

The energy soles are ideal and really special. I walked with them on the first day - very good, no tiredness in the legs. My son's conclusion when he left work on Monday (8h standing / running): My feet feel light, and energetically „charged“, super soles. Thanks for this good product.

Thomas Popp

6 TIMES CYCLIST-
MARATHON WORLD
CHAMPION

In my sport a high endurance and fast regeneration is enormously important. With the Geonado energy insert, I can not feel a burning sensation or fatigue on my feet even after a long period of wearing them. Also my ability to concentrate is demonstrably higher than when I ride without energy deposits.

Andreas Linger

DOUBLE OLYMPIC WINNER

As a top athlete, I always had to deliver a top performance. The Geonado energy sole helped me with the daily training in strength and condition set-up as well as in the competition, where reaction and concentration sometimes decide the victory. The effect of this energetic support is simply sensational.

Dr. med.

Rüdiger Dahlke

DOCTOR - AUTHOR -
CONFERENCE SPEAKER

I love Geonado. I wear this energy sole whenever I am not walking barefoot. In addition, I am well protected by Geonado, because in every house in my TamanGa health resort a Geonado wave was installed right from the start.

Kathrin Fuchs

PHYSIOTHERAPIST

From a professional point of view, I was very interested in how the Geonado energy soles affect physical performance. I tested the soles during longer hiking and bike tours and could notice a significantly longer endurance as well as performance. So I can advise my clients for their own positive experience to wear the soles and be surprised by their effect!

About Geonado

Geonado experts have decades of experience in research, measurement and analysis of geophysical and energetic fault zones. Together with the inventor of the „original wave“ (Adolf Wiebecke) on which all scientific evidence is based, Geonado sets itself the goal of improving the quality of life of humans and animals increasing, and protecting them from disturbing influences. To do this, Geonado cooperates with experienced experts and renowned scientists and doctors from all over the world.
